13,400 square feet

Contract

\$1,400,000

Architect

Bavier Design Group

- Project involved the construction of an outpatient center and a rehabilitation facility with its own entry on the ground floor of an office building. The physical therapy area is partially below grade with sloping windows.
- Spaces included a large reception and waiting area for both uses, 14 exam rooms, X-ray room and support space, offices for doctors and administrators, staff lounge and pantry, locker rooms, conference facilities, and restrooms.
- Rehabilitation facility included a physical therapy area, an open gym, a treatment area with cubicles, and a hand therapy area.
